MnzSoftware is an emerging game development studio, but with a great experience on its back. Since 1994 we have been developing videogames or high-end software. Over the course of our career, Carlo and Andrea Monzini (founders of the studio), got the precious chance to collaborate with some of this industry giants, which -for example- are Ubisoft, Artematica, Kinder and Ferrero, Samsung, Nestlè EU, Diabolik and many more. We believe that this might be a crucial distinguishing feature to outline a great experience over this industry and its evolution.

Genre: Strategy

Platform: iOS (Mac Pc and Android versions coming soon)
